

THE MORNING APPEAL

H. R. MIGHELS, LESSEE

FRIDAY, DECEMBER 22

FOR PRESIDENT IN 1900

WILLIAM JENNINGS BRYAN,
Of Nebraska.

THE FRENNA ACQUITAL

The jury in San Francisco has acquitted Frenna, the slayer of Turner. It is a regrettable state of affairs that men are obliged to take the law in their own hands to punish swindlers but Frenna, it must be remembered, applied to the courts for legal redress and while the lower court gave it to him the Supreme Court reverse it, because Turner had not defrauded his victim in quite the proper way to come within the pale of the law. There are about one hundred ways in California that one man can rob another and still not exactly conflict with the code. After the Supreme Court freed the notorious swindler Frenna filled him up with lead and cleared the earth of a rank scoundrel. If a man went out with a galling gun and worked it along Market street all day there would still be confidence operators left in San Francisco—the hatchery of such characters.

People, at home or abroad, who may be laboring under the delusion that public opinion in the United States is in accord with the pro-British policy and course of the Republican Administration may clean a little useful information from an occurrence in Chicago last night. Because of public advocacy of Great Britain's side in the South African war by Dr. E. Benjamin Andrews, Superintendent of Public Schools in that city, resolutions were introduced in the City Council calling for Andrews' resignation or immediate suspension and removal from his position by the Board of Education.

Congressman Mondell, of Wyoming proposes to initiate a movement to get western men together so that they may work in unison in all matters affecting their territory in common. He has invited the Congressmen from South Dakota, Idaho, Colorado, Nevada and other States having arid lands within their borders to meet him on Saturday night at Washington, for the purpose of laying out a program relative to legislation to be asked from Congress affecting the disposition of public lands and the supply of water to the arid regions.

General Buller, who was going to eat his Christmas dinner in Pretoria, seems doomed to disappointment. The Government evidently thought there was imminent danger of the Boers taking him there for the Christmas feast and it has taken measures to gently let him out of the service in South Africa.

No feminine visitors are allowed to go through the Cramps' yard in Philadelphia, because every time a woman passes through the shops every one of the 7,000 workmen raises his eyes from his work, and in one minute one man's work for a fortnight is lost to his employers. —Chicago Inter Ocean.
